Miniatures 2007

A detailed photograph of a miniature BMW car, likely a 3 Series, placed on a dark, reflective surface in a modern office environment. The office features a desk with a laptop, a sleek chair, and a large window offering a view of a city skyline across a body of water. A large, curved, metallic pendant lamp hangs over the desk. The scene is brightly lit, suggesting daytime.

Discover the
details.

A passion for detail.

Whether you encounter a BMW on a twisting B-road or on a polished wooden desk, in 1:1 or 1:87 scale – it will always be a thrilling sight.

What captures the attention in the small BMW models is the amazing attention to detail, which is apparent even in the smallest scale models.

A love of detail that is reflected in months of painstaking development, where handcraftsmanship and a total of often more than 100 individual manufacturing operations result in a little masterpiece.

BMW Miniatures are more than simply scaled-down copies of the original. They are originals in their own right.

To pursue your passion for detail, you can now visit the BMW Lifestyle Online Shop at www.bmw-shop.com where you can see the current BMW Miniatures.

The finer the details, the more fascinating the whole. Gently open the bonnet of a 1:43 miniature, and you'll find a lifelike reproduction of a real engine. Or carefully study the interior of a 1:12 model. The longer you look at it, the more it feels like you should just be able to get in, sit down and drive off. Each scale has its own attraction; below is a summary of the main points.

The models actually depicted on the following pages are always marked with a dot.

1:12 Opening doors, bonnets and boot lids characterise the 1:12 models. The interiors even feature carpeting and leather upholstery. Plastics and zinc die cast processes are used to reproduce minute vehicle elements. The result – a high level of detail and fascination that you can touch.

1:18 Models of this size offer a good look at the engine and chassis. Their interiors are of a high quality, with forms and colours that are true to life, sometimes down to the use of carpeting. The look is that of the original. Proud print details enhance the look and feel further – no wonder this is the classic scale for model cars.

1:24 This, the most traditional scale originated in America, but has long since conquered the world. Collectors appreciate the multitude of tiny details clustered together. And the filigree-like, zinc die cast body.

1:43 These miniatures are so small that even a large collection won't require much space. Their painstaking workmanship is what fascinates collectors, especially in Europe and Japan. The bonnet, which allows a look at the engine, demonstrates particularly well how much room for detail there is even in the smallest BMW Miniatures.

1:87 This model scale was first used in H0-size model railways. The finely detailed miniatures are made of plastic. Delicate engravings on the body, tiny print features and individually assembled steering wheels, mirrors and lights are a delight and surprise even the most experienced miniature collectors.

Miniatures, like music, are all about the perfection of details.

The most convenient way to discover BMW Lifestyle.

Can't get enough? Would like to see more? Just ask your local BMW Dealer about BMW Lifestyle products. Individual catalogues for BMW Bikes and Equipment, BMW Sauber F1 Team and BMW ORACLE Racing, as well as a catalogue for the BMW Lifestyle range as a whole, are available from your BMW Dealer. You can also find these catalogues as downloads on the Internet, at www.bmw-shop.com, where you can shop around the clock.

www.bmw-shop.com

Lifestyle Shop

Explore a world of appealing articles from BMW: bikes, accessories and lots more.

Yachtsport Shop

Elements of style – the new BMW ORACLE Racing Collection 2007.

Pit Shop

Feel the essence of Formula 1 with the BMW Sauber F1 Team Collection.
